SUMMARY

Senior Frontend Engineer with 5+ years of experience building large-scale web and mobile applications using React.js, Next.js, TypeScript, and React Native. Experienced in frontend architecture, design systems, micro-frontend patterns, and cross-functional collaboration. Currently leading checkout modernization at lululemon while leveraging AI-native engineering workflows to drive productivity.

Frontend Architecture · AI-Assisted Development · Micro-frontends · Design Systems · Performance Optimization · React Native

EXPERIENCE

Publicis Sapient

July 2025 – Present [Mumbai](#)

Senior Frontend Engineer

- lululemon:** Lead a frontend pod within lululemon's checkout platform, driving technical discussions, code reviews, and delivery execution while owning the promotions and discounts domain end-to-end.
- Driving checkout modernization for [lululemon.com](#), migrating a legacy JavaScript codebase to Next.js and TypeScript within a micro-frontend architecture (GraphQL, Apollo, Zustand).
- Leveraged AI-assisted development workflows using GitHub Copilot, Claude Code, and agentic tooling to improve developer productivity and accelerate feature delivery.
- ADCB Banking:** Contributed to cross-platform digital banking solutions (React Native Expo, XState, Tamagui); built a phonebook onboarding component and a generic approval workflow reused across multiple banking modules.

Blitz Electric

June 2024 – June 2025 [Remote](#)

Senior Software Engineer (Frontend)

- Mobile Seller Platform:** Launched offline sales system with QRIS/cash transactions, geo-tagged returns, and photo verification, driving **30%** higher daily sales and **80%** fewer deposit disputes across **100+** stores.
- Shipping Fee Engine:** Replaced manual pricing with a real-time calculator (distance, weight, service type), improving order volume by **20%** and streamlining partner onboarding.
- Design System:** Built a reusable React component library (npm) to standardize UI across multiple teams.
- Order Tracking:** Built a partner-facing tracking system (Google Maps API) for Blibli and Lazada, reducing support queries.

Mosaic Wellness

June 2022 – April 2024 [Mumbai](#)

SDE 1

- Led development and migration of a consultation booking experience from WebView to React Native, resulting in a **40% increase** in appointment bookings and a **10% reduction** in funnel drop-offs.
- Built doctor consultation and appointment scheduling systems including an Instant Appointment System (Web) and a chat-based booking flow in the mobile app (React Native).
- Revamped the Track Order page with real-time in-page communications, contributing to a **5% decrease** in customer support queries.
- Products:** [manmatters.com](#), [bebodywise.com](#), [ourlittlejoys.com](#)

Edstem Technologies

July 2021 – April 2022 [Remote](#)

Software Developer

- Built student-facing quiz module and admin dashboard for Lead IAS (Angular Ionic); created a React compliance dashboard for Woodside with Jest unit tests.

Software Engineer

- Built end-to-end LMS features for SDBMI students (MEAN stack) and a Node.js certificate generation tool with pdfmake.

PROJECTS

Portfolio

[Website](#) | [Code](#) | *Next.js, TypeScript, Tailwind, GraphQL, Sanity.io, MDX*

- Built a personal portfolio and CMS-driven blogging platform using Next.js, GraphQL, Sanity.io and MDX, supporting content publishing, project showcasing, SEO optimization and dynamic content management.

TECHNICAL SKILLS

Frontend

Next.js, React.js, TypeScript, React Native, Redux, Zustand, Tailwind CSS, Storybook

Backend & APIs

GraphQL, Apollo Client/Server, Node.js, Express.js, REST APIs

Testing

Jest, React Testing Library

DevOps & Tools

Docker, GitHub Actions, Jenkins, Vercel, Git, Jira

AI Tools

GitHub Copilot, Claude Code, Cursor, Ollama, MCP Integrations

EDUCATION

Master of Computer Science (Grade: 9.29)

2019 – 2021

Mumbai University

Bachelor of Computer Science

2016 – 2019

Mumbai University
